RE: Visa Secure Test Suite (VSTS) Approval ID: 3DS2.2.0CJS20983DSS

Dear **Dilshod Umarov**,

We are pleased to notify you that Visa has approved the EMV[®] 3DS product identified by the above Approval ID ("the Product") for inclusion in Visa's EMV 3DS Compliant Product List, subject to the conditions set forth herein and all related Program documentation, including the Visa Secure Test Suite ("VSTS") Terms of Use, Visa Secure Program Agreement for EMV 3DS Product Providers (only if applicable), Visa Secure Program Guide, applicable Implementation Guides, Program Descriptions, subsequent compliance letters, Visa Rules (only if applicable) and all other documentation relating to the Program that is provided on the Visa Technology Partner website, at <https://www.visasecureservices.com/>, or otherwise made available by Visa, as such may be updated or modified from time to time by Visa (collectively, the **Program Documentation**).

When granted, Visa testing and approval helps to ensure that certain security and operational characteristics important to the Visa Secure (EMV[®] 3DS) program are met, but Visa approval does not under any circumstances include any endorsement, guarantee or warranty regarding the functionality, quality, security, or performance of any particular product. Visa does not warrant any products or services provided by third parties. Visa approval does not under any circumstances include or imply any product warranties from Visa (implied or express), including without limitation any implied warranties of merchantability, fitness for purpose, or non-infringement, all of which Visa expressly disclaims.

Specifically, Visa has approved the following product type:

Vendor:	Markazi Tekhnologiyahoi Muosir, CJSC (CJSC MARKAZI TEKHNologIYahOI MUOSIR)
Product Name:	SmartVista 3DS Server
Product Version:	2.2.25.R-3DSS
Product Type:	3DSS
EMV [®] 3DS Compliant Version:	3DS 2.2.0
3DSS Reference #:	3DS LOA SER BPBT 020301 00936
Implementation ID:	3DSS 17
Implementation Name:	3DSS Buyer: Acquirer Processor and Hosting 3DSS Provider
Visa Approval Expiration Date (YYYY-MM-DD):	2027-09-03

Visa performs limited testing to ascertain a product's compliance with applicable specifications. Visa's limited testing program is not designed to establish the functionality of your approved Product in all potential conditions in which it may be used. Visa's approval does not, under any circumstances include or imply any guarantees, assurances, or warranties that the approved Product will operate in all possible settings or in connection or combination with any other approved product.

Visa's approval is limited to products designed to comply with the following specification(s):

EMV[®] 3-D Secure Protocol and Core Functions Specification, Version 3DS 2.2.0

Evaluated Product

3DSS

This product was tested to ensure that the product could support Visa's EMV[®] 3DS Program.

Scope of Approval

Visa approves the Product for use anywhere in the world in compliance with applicable law and Program Documentation

Conditions

Visa only performs limited testing and the onus is on the manufacturer of the Product to conduct all testing necessary to ensure that the Product interoperates with other Visa approved products and that environmental issues do not adversely affect performance of the Product.

Visa's approval only applies to products that are identical to the Product tested by Visa. A product should not be considered approved by Visa, nor promoted as approved, if any aspect of the product is different from that which Visa tested and approved, even if the product conforms to the basic Product description contained in this letter.

All products must be submitted pursuant to the Visa Secure Test Suite Terms of Service. The approval granted in this letter is subject in all respects to the terms and conditions of VSTS and to Vendor's compliance with Program Documentation.

Vendor shall provide the data elements and fields as required by Visa in the Visa Rules and/or Program Documentation. If Vendor fails to provide such data elements or fields, Visa reserves the right to impose fines, fees, or non-compliance assessments upon Vendor in accordance with the Visa Rules and/or Program Documentation.

In addition to any other rights Vendor has granted or will grant to Visa and its Affiliates regarding data that is provided to Visa or that Visa obtains in connection with its participation in the Visa Secure Program ("Vendor Data"), Vendor hereby grants to Visa (or shall procure for Visa and hereby does grant) a non-exclusive, worldwide, non-transferable (other than to Visa Affiliates), fully paid-up, sublicenseable royalty-free license to (a) use, reproduce, distribute and make derivative works of Vendor Data and/or any such data that is already rightfully within Visa's possession to: (i) perform Visa's obligations under this Agreement; (ii) evaluate, analyze, develop, improve, and enhance Visa and its Affiliates' products, services and capabilities in connection with fraud prevention, security and risk management; and improved authentication and checkout experiences (iii) identify, prevent, and mitigate fraud; and (b) use for any other purposes agreed upon in writing by the parties. The Vendor further acknowledges that Visa may use cardholder data for purposes based on cardholder consents or permissions.

Vendor represents, warrants, and covenants that (a) if Vendor is a 3DS Server hosting service provider or a 3DS Server software vendor, prior to transmitting or making available any Vendor Data to Visa, Vendor itself or its Visa Secure customers (which include merchants, payment gateways, payment facilitators, and payment aggregators) have provided all applicable disclosures and obtained all necessary rights to Process Vendor Data and to grant the rights granted to Visa hereunder; (c) its provision of Vendor Data does not and will not violate any confidentiality or privacy rights of any third party; and (d) no third party intellectual property right is infringed in connection with the manufacture, use, importation, sale, offer for sale, distribution, reproduction, or display by Vendor, its affiliates, and/or its end users of any Product, either alone or in combination with other products, processes, or systems.

The issuance of this letter is further conditioned upon the product maintaining its approval from Visa. Upon the expiration or revocation of the approval granted to the product, this approval is void.

Approval granted by Visa does not supersede additional testing requirements as may be imposed by financial institutions or other customers, network services providers, or Visa Region Specific Requirements. The Manufacturer is encouraged to ensure that testing requirements from all relevant parties are met and approvals granted prior to sale or installation of the product.

Visa's approval is granted solely in connection with the product actually tested and to the submitting vendor. Such approvals may not be assigned, transferred or sublicensed, either directly or indirectly, by operation of law or otherwise. Only those 3-D Secure product manufacturers receiving a Visa approval for a product may represent that they have approval from Visa.

Visa may revoke the approval at any time. Because this approval may be revoked at any time, no third party should rely on this letter without confirming the continued validity of the approval with VSTS. Even though Visa has tested and approved this Product, as described in this letter, the manufacturer of each product shall be responsible for compliance with all applicable specifications and for all liabilities resulting from the use or distribution of the product.

You may communicate to Visa customer banks, financial institutions, merchants and service providers that the Product is Visa approved provided, however that you also communicate any of the limitations on Visa's approval described above under the heading, (a) Scope of Approval, (b) Comments and/or Specification Deviation(s), (c) Condition(s), and all written communication referring to Visa approval shall contain the following legend:

"When granted, Visa approval is provided by Visa to ensure certain operational characteristics important to Visa's systems as a whole, but Visa approval does not under any circumstances include any endorsement or warranty regarding the functionality, quality or performance of any particular product or service. Visa does not warrant any products or services provided by third parties. Visa approval does not under any circumstances include or imply any product warranties from Visa, including, without limitation, any implied warranties of merchantability, fitness for purpose, or non-infringement, all of which are expressly disclaimed by Visa. All rights and remedies regarding products and services which have received Visa approval shall be provided by the party providing such products or services, and not by Visa."

Sincerely,

A handwritten signature in black ink, appearing to be "Paul Agas", written in a cursive style.

Danniel Agbada,
Senior Director, Global Client Testing, Visa Inc.
